

**ISCVE**

# Institute of Sound, Communications and Visual Engineers

## Member get a Member scheme

The success of the ISCVE, like that of any institute, depends very much on the size of its membership. The greater the membership, the more subscription funding is available, and the more Council can do for you as our members.

To do that, we need your help and at the same time, we will reward you with a **£10 major store voucher** (or equivalent) for every member successfully introduced.

We all know someone who would benefit from the membership of our developing Institute, where the benefits wholly justify the annual subscription. **All you need to do is persuade your colleagues and contacts to apply to join the Institute and we will do the rest.**

It may be that you know a specialist within a local council, a large organisation, a college or a theatre. The more we can spread our influence, the greater will be the return, so that in due course, everyone will want their installation or service to be carried out by an ISCVE member.

### Supporting Member scheme

Perhaps one of our most successful initiatives has been the Supporting Member scheme. Judging by the very high retention rate, this has been well received by the current scheme members. If you know of a reputable company that would benefit from being a Supporting Member, then please send us the company name and the contact details of the Chief Executive, or the ultimate decision maker and we will get in touch with them. Or you can email them the direct link to the brochure from our website. Once again, we will reward your efforts in the same way as for the MGM scheme.

**£10**  
per member
